Triple-T Processes for Reaching Church Potential

Read, Learn, Lead

Robust Churches Require Training, Timing and Trusting

Nothing is more important than the Church of Jesus Christ. Because God’s Body of Christ relies upon that which each part supplies, leaders must engage in processes that a) intake the five types of people who attend churches, b) train them in a Bible-based operational value system that promotes unity c) time the growth and deployment of the gifts God gives them, so the church reaches its potential for effectiveness.

Three-Dimensional Leadership processes improve the Delegation Dynamics that are the foundation of church growth, development and effectiveness. Delegating roles and responsibilities verses odd jobs, is a primary key.

We do not delegate because we do not trust. We do not trust because we have not trained people. We have not trained because we have not identified what is important that we want others to know before we can trust them.

The 3-D MRC leader, book and training programs help your team work through how to address these issues.

3-D MRC Values

3-D MRC is a system of values that initiate behaviors to effectively lead, inspire, motivate, coordinate and achieve objectives.

MISSION Matters Most

Exemplify you value the mission above your own personal agenda

Rally RESOURCES

Deploy available people, finances, support and strategies to help others do their jobs.

Convert within the CONTEXT

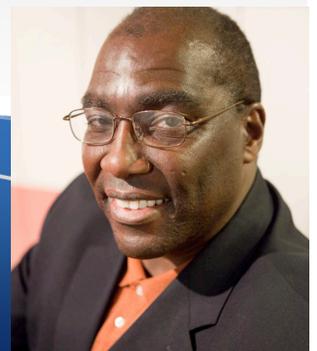

Determine the relevant variables that impact resource application to fulfill the mission

The 3-D MRC Pathway to Church Potential

As author of *The Three-Dimensional Leader: Negotiating Your Mission, Resources and Context (MRC)*, I consult and train to help pastors, churches, and ministry teams to organize around a set of principles that help them overcome the natural tendency for “each person to do what is right in his or her own eyes” as opposed to acting from a unified perspective that results when we synthesize your mission, vision and values into an actionable Biblical framework that all can rally around and support.

3-D MRC facilitation provides direction that gives your church a clear sense of how to address the inevitable challenges that result when large numbers of people congregate. These biblical models sharpen your leaders as managers who assist in developing, organizing and overseeing processes that provide the necessary structure to deliver needed activities and services the congregation requires to fulfill its ministry within the greater community.

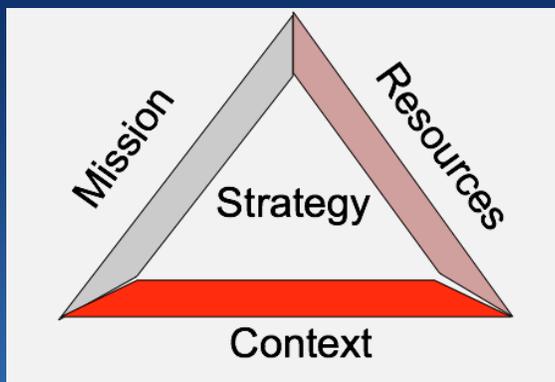

3-D MRC initiatives help your church outline the values for how gifts are used, and the processes for implementing the new gifts God is growing up to serve in the organization.

Healthy church life is about growing God's people, who grow in their gifts and make more disciples who also enter into the church's ongoing growth continuum!

3-D Leadership MRC Training transforms organizational behavior by helping those from the boardroom to the mailroom to get a holistic view of operations, by keeping in focus the mission, resources & context relationship.

Simple but Powerful Tools Improve Your Teams' Effectiveness

While employees and volunteers at different levels require some specific training, all of them need a 3-D MRC team focus to better achieve corporate objectives in all ministries. Whether in administration, edification, greeting, helps, hospitality, prayer, preaching, teaching, tech and/or worship, every ministry participant will benefit from 3-D MRC training that is broken down into simple terms that high school students readily grasp, yet add to the knowledge base of those with advanced degrees. Now that's effective team building!
