

The Three-Dimensional Leader
 negotiating your
MISSION, RESOURCES & CONTEXT
 — Earl C. Wallace

**Leadership for Achieving Tech Ministry
 “Synergy from Diversity”**

Read, Learn, Lead

**Synergy Requires Leadership for
 Diversity to become a Symphony**

Leadership in tech ministries is about getting diverse viewpoints and gifts to achieve the Triple-C synergies of communication, cooperation and coordination. Thus people will perform as teams, rather than as a loose association of individuals who merely are isolated button pushers doing their jobs.

Team Synergy: “Team synergy is achieved when the output of the combined parts is greater than their mathematical sum. Synergy is achieved when $1 + 3 = 6$.” (*The Three-Dimensional Leader: Negotiating Your Mission, Resources and Context*, page 76). Synergy is the goal of “Body of Christ Dynamics.”

Three-Dimensional Leadership teaches us how to rally others around the mission that matters most to those coming to church, who desperately need a touch from Jesus Christ, which our corporate worship services can provide. Nothing is more disappointing, however, than to see people working for God who are disheartened by leadership blind spots, when the expectation is all will be infused with the Lord’s presence.

The 3-D MRC Pathway to Effective Planning & Implementation

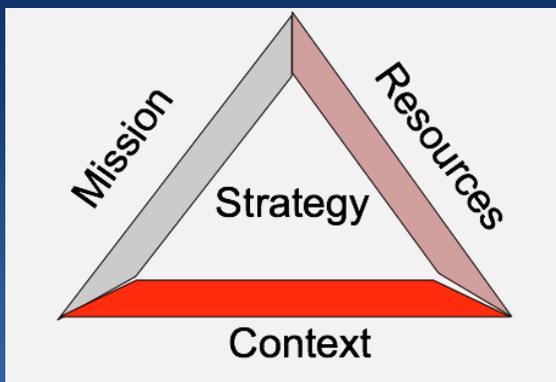

The Three-Dimensional Leader: Negotiating Your Mission, Resources and Context (MRC), book and training inspires churches, pastors and their teams to organize around a set of principles that help them overcome the natural tendency for “each person to do what is right in his or her own eyes” to act in the unity that results when mission, vision and values are synthesized into an actionable Biblical framework that promotes self-assessment in relation to expected corporate behaviors.

Improve Initiatives - How many initiatives and installations have failed to fulfill expectations due to leaders not understanding how to implement the good processes that take advantage of the good advice that consultants provide?

3-D MRC training provides practical biblical resources that sharpen your leaders as effective managers and process engineers who excel at developing, planning, organizing and overseeing the implementation of projects that take your organization forward without the do-overs and look-backs that result from poor processes.

Politics vs. Process:

Good process involves people doing the right things. Good politics is networking to mitigate and negotiate to encourage peers and others to participate in good process.

3-D MRC Leadership Training transforms organizational behavior by helping those from the boardroom to the mailroom to get a holistic view of operations, by keeping in focus the mission, resources & context relationship.

Simple but Powerful Tools Improve Your Teams' Effectiveness

While employees and volunteers at different levels require some specific training, all of them need a 3-D MRC team focus to better achieve corporate objectives in all ministries. Whether in administration, edification, greeting, helps, hospitality, prayer, preaching, teaching, tech and/or worship, every ministry participant will benefit from 3-D MRC training that is broken down into simple terms that high school students readily grasp, yet add to the knowledge base of those with advanced degrees. Now that's effective team building!
